<b>Test Level:</b> <i>(See level descriptions at the end of the test assessment.)</i>	<b>1, 5</b>

Behavior Assessment is a standard practice of rescues and shelters to evaluate the personality and behavior of the dogs in the program. The purpose of the test is to gain an understanding of the dog's character. The test is performed a minimum of 3 to 5 days after the dog's arrival as some dogs may be stressed when they first arrive and testing during this time may not be an accurate assessment. Although all efforts are made with the end goal of making the best possible placement for both the dog and owner, it is impossible to guarantee the personality and behavior of any dog. The behavior assessment is not an express or implied warranty or guarantee of any kind of the dog's personality and behavior. We strongly advise that you monitor your dog closely and use caution/discretion as to with whom and under what circumstances interactions are allowed with your dog until you have fully acclimated the dog to its new surroundings and have formed your own observation and assessments of the dog's personality and behavior after acclimation to its new placement.

**LEVEL SUMMARY DESCRIPTIONS:****Level 1:**

Super easy, low energy, no issues; would do well in virtually any home regardless of owner experience.

**Level 2:**

Low to moderate energy though some activity may induce high energy. Needs average leadership; generally lacks obedience or house manners. Could be shy, quiet or outgoing but not difficult. Dog may have minor issues that are easy to address and is a good dog.

**Level 3:**

Moderate, high or very high energy/drive. Needs an owner experienced with leadership and proper management. Typically good dog but may have challenging behavior. Could be dog reactive or aggressive and possibly the only animal in a home.

**Level 4:**

Intense focus and/or extreme energy/drive. Could be a dog for fly ball, agility or other sporting abilities. Can be strong, pushy or dominant. Needs experienced owner that has commitment to provide the dog with the guidance and training he/she needs to be successful.

**Level 5:**

Extreme lack of social skills regarding humans; needs a canine mentor. Requires owner commitment and patience to allow dog to grow at its own pace and increase confidence.

**NOTES:**

Amber is a beautiful tall girl with a silky soft coat.

She has come such a long way since she first arrived.

She likes gentle attention like petting under her chin and on her back and likes butt scratches.

She takes treats very gently.

She is very alert. Observant. Watches and listens to everything.

Investigates the room sniffing every corner.

Walks very nicely on leash.

Loves being outside to roll in the grass and sometimes get the zoomies.

Pulls back if you reach over her head or attempt to hug.

Amber has been living in the office for over a month and is a perfect house dog.

She will try to counter surf if she smells something good, but otherwise she is just the best. Loves lying on her bed curled up into a donut shape. Never barks.

Loves to be with you but not needy. Just wants to hang out and lie on her bed.

A very easy dog to give daily care to. She doesn't require much.
