HELP US HELP YOUR GOLDEN

We understand that relinquishing your Golden is an extremely difficult decision, and we promise that DVGR has your dog's best interest at heart. Since 1993, our sole mission has been to find the best adoptive homes for Golden Retrievers like yours, and we are known as one of the premier Golden Retriever rescues in the country. We promise you that through our rigorous screening and adoption process, we will carefully match your dog with the best possible home and environment for his or her needs.

You can help us help your Golden by thoroughly completing this Intake Profile. We ask a lot of questions, but the more information we have, the better able we are to help. We are accustomed to dealing with health and/or behavioral issues, so your frank and honest answers will greatly assist us in determining the best home for your Golden. In addition, this information (with the exception of your name and contact information) will be shared with the new family to help them know as much about the dog's background as possible.

Completing the form should take approximately 20-30 minutes. If you have any questions while doing so, please contact us for assistance (717-484-4799 or intake@dvgr.org).
