<b>Test Level:</b> <i>(See level descriptions at the end of the test assessment.)</i>	<b>1, 2</b>

Behavior Assessment is a standard practice of rescues and shelters to evaluate the personality and behavior of the dogs in the program. The purpose of the test is to gain an understanding of the dog's character. The test is performed a minimum of 3 to 5 days after the dog's arrival as some dogs may be stressed when they first arrive and testing during this time may not be an accurate assessment. Although all efforts are made with the end goal of making the best possible placement for both the dog and owner, it is impossible to guarantee the personality and behavior of any dog. The behavior assessment is not an express or implied warranty or guarantee of any kind of the dog's personality and behavior. We strongly advise that you monitor your dog closely and use caution/discretion as to with whom and under what circumstances interactions are allowed with your dog until you have fully acclimated the dog to its new surroundings and have formed your own observation and assessments of the dog's personality and behavior after acclimation to its new placement.

### FOOD GUARDING:

*Some dogs become protective of their food bowls or other food objects, and may growl or try to bite when approached. The first test indicates if the dog will react if an artificial hand is presented to the dog without food nearby. The second test determines the dogs' tolerance for being petted while eating, and having someone try to put hands in their bowl.*

**LEVEL SUMMARY DESCRIPTIONS:****Level 1:**

Super easy, low energy, no issues; would do well in virtually any home regardless of owner experience.

**Level 2:**

Low to moderate energy though some activity may induce high energy. Needs average leadership; generally lacks obedience or house manners. Could be shy, quiet or outgoing but not difficult. Dog may have minor issues that are easy to address and is a good dog.

**Level 3:**

Moderate, high or very high energy/drive. Needs an owner experienced with leadership and proper management. Typically good dog but may have challenging behavior. Could be dog reactive or aggressive and possibly the only animal in a home.

**Level 4:**

Intense focus and/or extreme energy/drive. Could be a dog for fly ball, agility or other sporting abilities. Can be strong, pushy or dominant. Needs experienced owner that has commitment to provide the dog with the guidance and training he/she needs to be successful.

**Level 5:**

Extreme lack of social skills regarding humans; needs a canine mentor. Requires owner commitment and patience to allow dog to grow at its own pace and increase confidence.

**NOTES:**

Chucky is a very sweet boy.

Love his sugar face.

Loves people.

Sits close and gazes into your eyes.

Loves toys. Plays tug.

Loves food. Takes treats nicely.

Knows "sit", but could use more obedience training.
